### 3 2010 Learning Paths

This year, we've developed six Learning Paths designed to expand your understanding of a variety of best practices and techniques critical to success in today's global economy. From both specific- and general-focused sessions on navigating the global supply chain and operations planning and control to lean operations, professional advancement, and much more, the 2010 Learning Paths offer real-world education on today's most pressing topics.

Attend sessions from one Learning Path or attend educational sessions from each of the 2010 Learning Paths—APICS 2010 is about tailoring your educational experience to prepare you for what's next.

#### Global Supply Chain Principles

Educational sessions will increase your knowledge in the global supply chain by teaching you how to accelerate cash flow, model and benchmark supply chain management, improve and expand supplier partnerships, and more.

#### Global Supply Chain Specifics

Educational sessions will connect you to real-world education from sustainability improvements and logistics strategy optimization to managing risk across the supply chain and more.

#### Planning and Control of Operations Principles

Educational sessions will increase your understanding of inventory management in a multicontract environment, key areas of improvement in S&OP processes, managing and scheduling around trapped capacity, and more.

#### Planning and Control of Operations Specifics

Educational sessions will help you optimize supplier collaborations, enhance scenario planning in S&OP, apply hospital operations management best practices to your industry, and more.

#### Lean

Educational sessions will help you apply lean operations best practices in your organization, no matter the size and industry; enhance and prioritize continuous improvement; and more.

#### Professional Advancement

Educational sessions will help you improve your interviewing skills, prepare yourself for future trends in the profession, illustrate techniques for improving the employee value proposition for new hires at your organization, and more.
